PROJECTS

Full-Stack MERN Stock Trading Platform ⧉
Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS, Redux Toolkit, RTK Query, JWT, Mongoose
- Developed a full-stack stock trading web application with **real-time portfolio management, order placement, and watchlist tracking**.
- Built a **responsive dashboard** using React and Tailwind CSS, integrating **Redux & RTK Query** for efficient state management and live data updates.
- Implemented **secure JWT-based user authentication** and backend APIs with Node.js/Express to manage **holdings, orders, and funds** in MongoDB.
- Optimized data flow and UI for seamless user experience;

Bookstore Web Application ⧉
Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS, Redux Toolkit, RTK Query, JWT, Mongoose
- Developed a full-stack MERN bookstore web app with **user and admin panels**.
- Implemented user features: **book browsing/search**, **registration/login**, **add to cart**, **checkout**, and **order history tracking**.
- Built an admin dashboard to manage books, categories, and monitor all user orders with **real-time updates** and **role-based access control**.
- Integrated **secure authentication** using JWT and Google OAuth.

Wanderlust ⧉
Technologies: Node.js, Express.js, MongoDB, Mongoose, EJS, CSS
- Built a travel and accommodation platform where users can **explore, create, and manage property listings** with images, descriptions, and pricing.
- Implemented **authentication and authorization** with Passport.js.
- Developed dynamic, responsive pages using **EJS templates** and custom CSS.
- Integrated **CRUD operations** for listings and reviews with persistent data storage.

CERTIFICATIONS

Apna College | Delta Full Stack Web Development Course
Remote
Completed the Delta Full Stack Web Development Bootcamp (Apna College), gaining hands-on experience in **MERN stack, REST APIs, authentication, and deployment** of production-ready apps.
